

The **Holcim Foundation for Sustainable Construction** promotes sustainable responses to the technological, environmental, socioeconomic and cultural issues affecting building and construction. To encourage innovative approaches to sustainable construction, the foundation conducts activities including the triennial USD 2 million Holcim Awards competition and Holcim Forum symposium. **We are seeking** a highly motivated

Technical Officer

to complement our dedicated team based in Zurich-Oerlikon, Switzerland. You will be responsible for providing technical expertise in the fields of architecture, engineering and urban planning, and liaise between the Holcim Foundation and its Technical Competence Center c/o Swiss Federal Institute of Technology (ETH Zurich).

You possess an in-depth and current knowledge of sustainable development and construction (theory and practice) to build awareness of the Holcim Foundation and to engage with its partners. Your interpersonal skills, presentation flair and technical competence enable you to represent the Holcim Foundation and its initiatives towards all stakeholders.

You enjoy developing an effective network and connecting with experts to uncover fresh ideas and perspectives. You secure speakers, edit papers and co-plan international conferences and provide technical support for the Holcim Awards competitions by coordinating the adjudication process of the independent juries in five regions of the world and managing the verification process of nominated projects.

You have a degree in architecture, urban planning, civil engineering or similar, several years' experience in an academic environment and a capacity to work effectively in an interdisciplinary team. Outstanding written and verbal proficiency in English is required; additional language skills are an asset.

We offer attractive employment conditions corresponding to those of our sponsor, Holcim Ltd, one of the world's leading suppliers of cement and aggregates as well as ready-mix concrete, asphalt and construction-related services.

We invite you to review a detailed job description of this newly-created role, and find out more about your application which should be submitted to Edward Schwarz at www.holcimfoundation.org/jobs
